

ISSUE LOG			
Project Name	UniGo		
Issue #	Description	Priority	Status
1	One of the team members, Krupal, was unable to clear his ENEL 351 course this semester which resulted in him dropping all courses and taking a leave for 8 months. As a result, the final year project team was left with only one member, Yash, and the project was put on hold until the situation could be cleared. Krupal was in touch with Melissa and received a response that he could enroll for ENSE 351, allowing him to continue working on the project. The team has now been reunited and is working towards completing the project. The issue has been resolved and the team is back on track.	High	Completed
